
ViseeO | Connect Any Bluetooth Phone to Mercedes Benz

Mercedes* Bluetooth Phone Cradles

The ViseeO Mercedes* Bluetooth phone cradle for in car hands free mobile phone use allows you to connect virtually any Bluetooth mobile phone to a Mercedes Benz*.

Essentially, there are 2 conversations going on

- ViseeO emulates a Mercedes-compatible phone when interfacing with the car, so all the car's functions and buttons work perfectly

(Note: SMS messages won't transfer to the car)

- At the same time, ViseeO will interface with virtually any bluetooth compatible mobile phone, and allow it to connect with the car

- It even synchronises your mobile phone contacts with the car!

- Installs in seconds - watch the install video [here](#)

There are 2 models available.

[Click here](#) to choose which Mercedes compatible phone cradle is right for you.

Better than the Mercedes Benz Bluetooth Cradle!

You may be aware Mercedes Benz already make a Bluetooth SAP in car hands free kit. However, it is riddled with problems. There are restrictions on which phones will work, and even which network provider.

ViseeO is a far superior Mercedes mobile phone connect solution, with a better feature list, more flexibility, and a lower cost.
